### When Should You Wash Your Hands? Remember the 4 Moments!

Hand Hygiene is considered a routine practice in our care industry. This does not change no matter if you are feeling unwell, if you are interacting with anyone or if you are out in public. You must use Hand Hygiene when you are in our community and visiting your friends and neighbours. AgeCare communities all have posters and reminder on how to wash either with alcohol based hand rubs or good old fashioned soap

### Weather or Not

As the summer nears its end and we inch closer to fall, let's use some *August Weather Lore* to try to predict what the next winter will be like! Pay attention to the first week of this month — if it is unusually warm, it means that the coming winter will be snowy and long. Was this month cold?

If so, it means that the following winter will be harsh and dry.
